

AD HOC KOMPETENCE

KONSULENTPROFIL: TKL 448

2015-06-18

DESCRIPTION

I love clean and beautiful code I set an honor in develop and deliver code that is tested function and can be understood by others. I'm very disciplined in the things that I love to do and that is building great software. When I'm not coding and looking into new technologies such as Objective-C and Swift programming language for the iPhone and Clojure for the JVM. I'm also a big fan of Reactive programming api and frameworks such as rxjava and ratpack. and I love to do a lot a sports and spent time with my family

ERFARING

Senior IT Developer at Nordea

July 2014 - Present

I work in the Financial Planning Strategy & Projects Department in Denmark Where Senior Developer that

help build the new Investment Advice Process.(IAP) My main task as a Senior Engineer is to Is to code features and do Proof of Concept on new technologies I help my colleagues and guide them in how to create code with good quality and make sure that the meet Nordeas test metrics . I also look into contentious integration on how we can come closer to easy deploy with tools like Jenkins and Bamboo

Technologies Java EE7, Java 8 Spring Spring-boot AngularJS, TDD BDD, Jenkins, Weblogic 12 c, REST , Spring-reactor, Maven

Senior Software Engineer at CORENA

April 2013 - July 2014 (1 year 4 months)

Building and maintaining customer specific solutions. for customers as Danish Defence, Bombardier. Norwegian Railway.

For Norwegian Rail way I created a web app in BackboneJS that was a shopping basket so the workers on the factory floor og Norwegian Rail could order parts for there repairs.

For Danish Defence I created a web application with GWT and Oracle that call a .NET application that read metadata for AUTOCAD drawings. and synchronize the data with predefined data from a excel sheet

I also did code review and guidens on 4 developers in China. I also did small tasks on Lufthansa , CACSO so the can integrate with S1000D We where using, JavaEE , Spring GWT, Jenkins, Oracle Weblogic ,Oracle Database, REST, Backbone , Apache ANT

System Engineer at Systematic

January 2013 - April 2013 (4 months)

I currently work on a project for Erhvervsstyrelsen. Where I'm the Scrum master but I also take part in the

Consult Solutions Gydevang 39-40 3450 Allerød Tlf: +45 4814 2112 Mail: info@consult-solutions.dk
WWW: www.consult-solutions.dk

AD HOC KOMPETENCE

daily development. I created a API for our project that could split big data files up in small chunks that could be sent through a REST client.

development, using technologies as JavaEE, REST, EJB TDD SAP , Apache ANT

System engineer at Systematic

October 2010 - April 2012 (1 year 7 months)

Client: Danish National Security, Project: ESYS Working as an Java developer in a scrum team that located

on to different location. I sit at the costumer which are Danish National Security Agency where I help them build Applications to make Denmark a safer place. It has been very interesting to see how a scrum setup can work over different location and how you are stil able to deliver on time and with high quality. My main focus in the project was being a java developer with both sitting with all from back and to front -end.

Technologies used : Java, GWT, Spring MVC,Maven 2, Apache 2

System Engineer at Systematic

October 2010 - April 2012 (1 year 7 months)

Helping building a SOA platform for the Danish municipalities with Services helps them get cheaper

access to vital services that cost them a lot of money to access today. Task on the project are developping Webservice and others forms of services. with esb soap jaxb , Mysql JBoss ,and java

Konsulent at Nykredit

June 2008 - September 2010 (2 years 4 months)

Nykredit internet bank (Ibank) periode fra juni 2008 til juni 2009 Project: Nykredit internet and banking First of all I helped maintain the online bank. Technologies used: Java 1.4 axis 1 EJB 2, Spring 1 Project: Nykredit online I help maintain Nykredit Online with new feature like facebook like and share plus some small Flash application . Technologies used Java 1.4, ActionScript

Developer at Unwire

2007 - 2008 (1 year)

I worked as an developer on two applications platforms. the first applications was the statics application. The statics applications was an applications that kept statics over sms sent to different competitions etc.

we used Java MySQL and Jasper Reports.

The other system I was working on was a portal server. The portal server could render mobil content do different kind of phones. it was before the smart phone that could render normal html. So the portal server could see what kind of phone brand name and model it was and only return the content it could show, we used Java MySQL XML and PML. PML stands Portal Marked Up Language. and it was designed by Unwire.

AD HOC KOMPETENCE

System developer at Brunata A/S

December 2006 - June 2007 (7 months)

APPLICATION: MSC MEASUREMENT CONTROL SYSTEM MCS is a webapplication that users of Brunatas product can log in on a site and see how much heat that they have used EMCS Energy Measurement Configuration System I a small application done in C++ and C# to configure up to 10 energy messurment devices with xml input. I worked on this application solo
